“One thing people really love about joining the team is it’s not the night duty shifts that so many clinicians are used to working in hospitals. Doctors coming from overseas also don’t need a Medicare Provider Number to deliver services with us.”

Emma McMullan
General Manager,
Bupa Medical Visa Services

We regularly
employ qualified
phlebotomists,
registered nurses
and enrolled
nurses into Health
Assessor roles.

Bupa Medical Visa Services (BMVS) provides immigration health services to visa applicants on behalf of various immigration departments, primarily operating from city-based medical centres around the country.

A rewarding alternative

Experience the reward of using your clinical expertise and people skills to support a diversity of cultures starting their next chapter in Australia. Sure, it’s a fast-paced environment. However, our point of difference is still giving you enough time to deliver quality customer care.

Refreshingly predictable – surprisingly flexible

The predictable caseloads and flexibility of BMVS ‘office-style’ hours help rebalance the clinical side of things. This can be a great relief after years of shift work or returning to work after parental leave. Seasonal increases in our assessment requirements can also work in well between future medical studies.

You’ll also enjoy active support for your expertise in a vibrant collaborative environment.

How our people see it

At Bupa, your wellbeing and story are respected and valued. We celebrate diversity and embrace differences, creating a place where every team member has a real voice and role in achieving our culture of care.

Benefit at Bupa

As a permanent team member, you’ll enjoy many extra benefits:

- Flexibility to achieve CPD points
- Discounted gym membership
- Paid parental leave
- Wellbeing support for you and your family
- Flu vaccinations
- Paid domestic violence leave
- Discounted private health insurance
- Travel, home, car, and pet insurance discounts

Not having to bring work home really helped create a better work-life balance.

Aznee's story

Medical Officer & Lead Panel Physician

In her five years with BMVS, Aznee has achieved more than she first imagined. Joining as a Panel Physician, Aznee has moved interstate for roles and promotions, leading to today's dual roles in Melbourne and Adelaide.

"I get to be myself in this role at Bupa. I didn't realise there were so many opportunities. I get to do both the medical side of things whilst learning skills in management - it's a dream come true."

Given the extra flexibility she experiences at BMVS, there's also time for long brunches, golf and scuba diving.

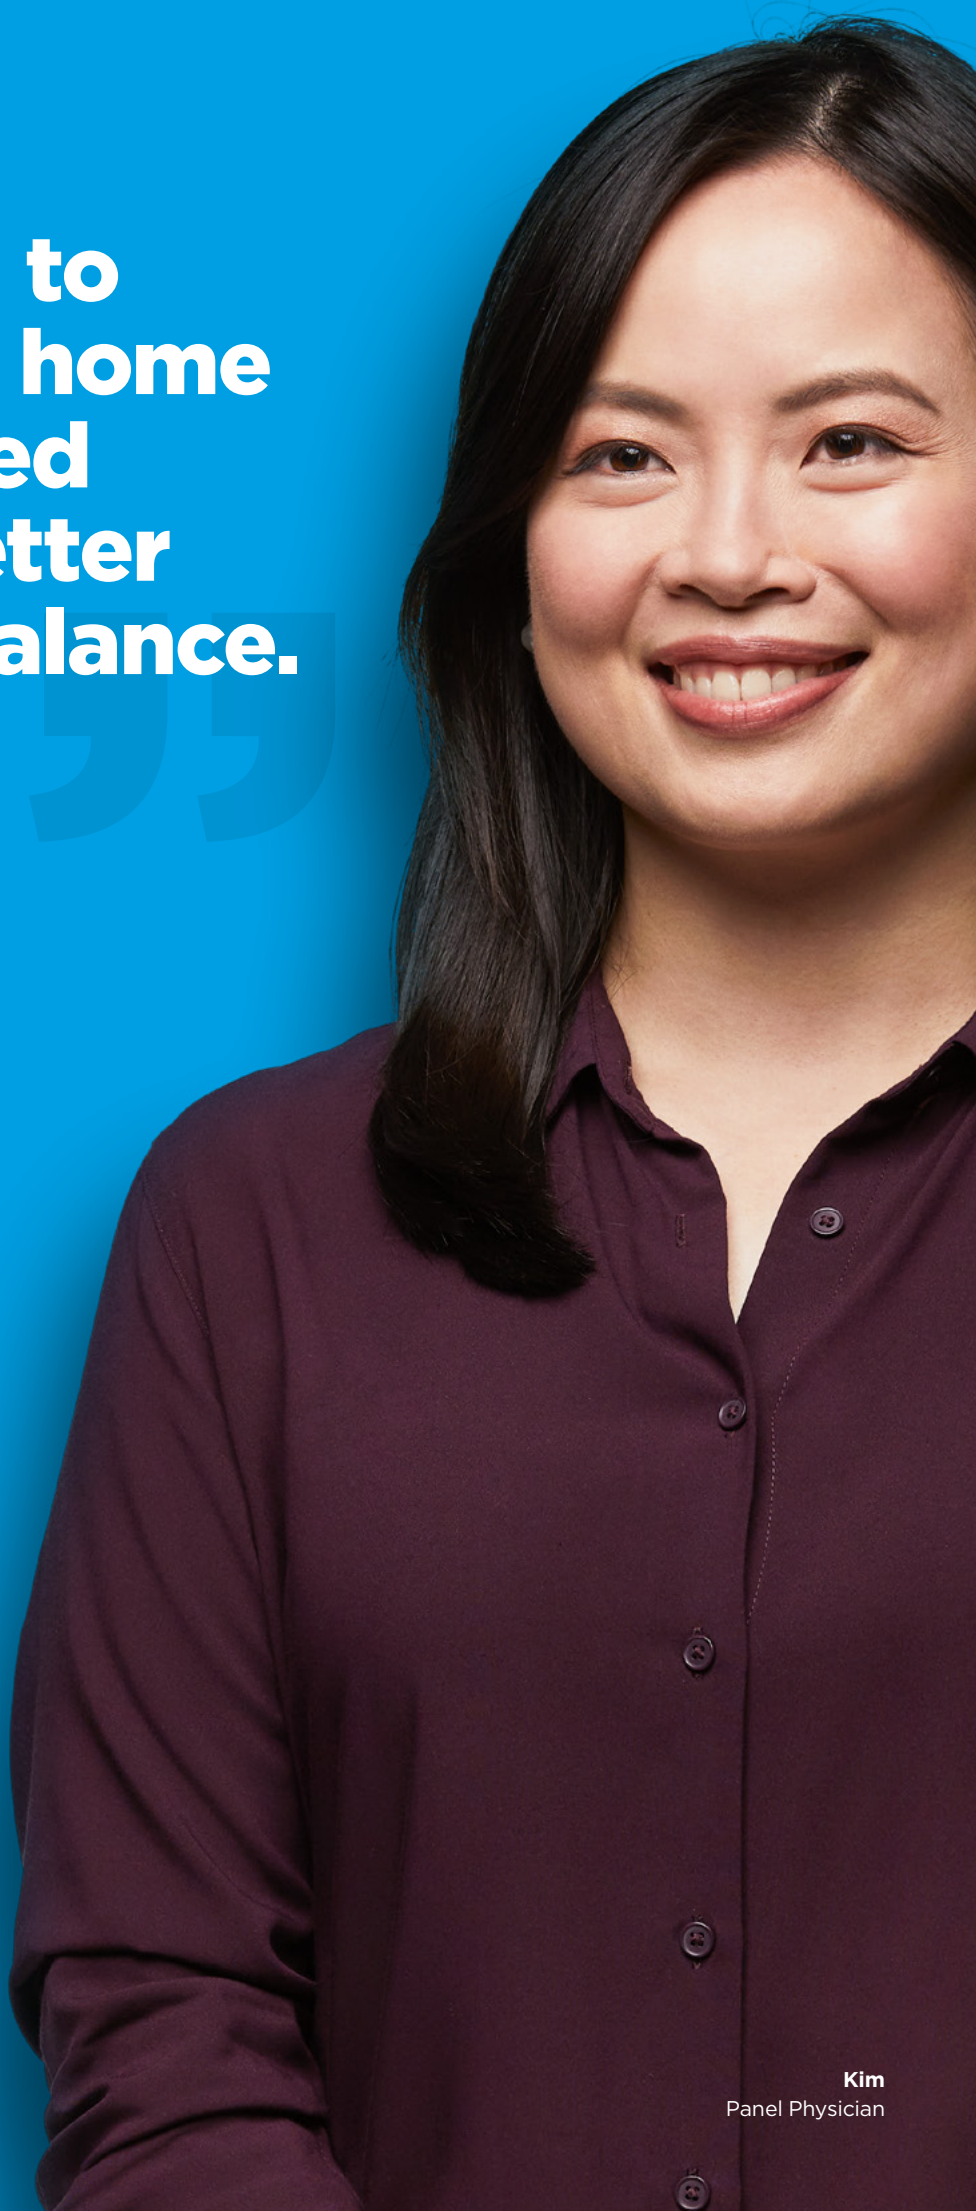

Melissa's story

Health Assessor

An Enrolled Nurse for over 15 years, Melissa has been with BMVS from day one. Five years on, for Melissa the tasks are the same, but the people are the difference.

"Both my customers and colleagues make my job. Everyone has a story to tell and a voice to be heard."

Beyond her role as a Health Assessor, Melissa has been recognised at Bupa's Global Awards for her work as a wellbeing, health and safety ambassador.

Kim
Panel Physician

I started as a casual team member but after a month they saw my performance and offered me full-time work.
