### Pre-existing condition

A pre-existing condition is any condition, ailment or illness that you had signs or symptoms of during the 6 months before you joined or upgraded to a higher level of cover with us. It is not necessary that you or your doctor knew what your condition was or that the condition had been diagnosed.

If you knew you weren't well, or had signs of a condition that a doctor would have detected (if you had seen one) during the 6 months prior to joining or upgrading, then the condition is considered pre-existing.

A doctor appointed by Bupa decides whether your condition is pre-existing, not you or your doctor. The appointed doctor must consider your treating doctors' opinions on the signs and symptoms of your condition, but is not bound to agree with them.

### When to contact the fund

If you have less than 12 months membership on your current hospital cover, make sure you contact us **before** you are admitted to hospital and find out whether the pre-existing condition waiting period applies to you.

We need about 5 working days to review any documentation from you or, your treating medical practitioner(s).

Make sure you allow for this timeframe when you agree to a hospital admission date. If you proceed with the admission without confirming benefit entitlements and Bupa subsequently determines your condition to be pre-existing, you will be required to pay all hospital charges and medical charges not covered by Medicare.

### Emergency admissions

In an emergency, despite our best efforts we may not have time to determine if you are affected by the pre-existing condition waiting period before you are admitted. Consequently, if you have less than 12 months membership on your current hospital cover you might have to pay for some or all of the hospital and medical charges if:

- you are admitted to hospital and you choose to be treated as a private patient; and
- Bupa determines that your condition was pre-existing.
